---

**Online Access** includes a password protected website (itsasport.com) which allows you to access your ordered products/subscriptions online as many times as you want. Unlimited Access allows your students the ability to go online at home or at school to look at resources available to them. Online Access will also allow for a coach/teacher to access their purchased materials and print those materials at their discretion. Online Access will also allow for coaches/teachers and students to keep in contact with AD Testing Services via comments and emails. We at AD Testing Services pride ourselves in direct and beneficial contact with our customers! We always want to hear that our products are doing what they were designed to do; propel a school towards victory at Invitational, Districts, Regional, and State competitions!

**Print Access** includes the information which you ordered in a print form which is sent to your mailing address via first class mail. It does not offer the same benefits as online access and does not allow for unlimited access on the internet. You still get the same friendly services which include a direct link to the maker of your given product via email or phone (comments, questions, concerns) and you will also receive letters in the mail in regards to additional information and resources that AD Testing Services is going to produce and make available.

**COMING SOON!** UIL Social Studies Newsletters (Free for subscribers) with additional information that is found pertinent to the contest/topic as well as strategies for success and activities to reinforce the material.
